Raising her children and running a small business kept her very busy for the next few years. In the spring of 1999 she found clay again, with a gift of a pottery class from her son. The journey began. Now retired and working in her studio in Bobcaygeon, teaching classes and honing her skills with seminars and weeks at the Halliburton School of The Arts.

Kareen Hague is from Markham, ON. She loves color and loves to work big. She always begins with a texturized background that gives added depth and dimension to the vibrant colors. The colorful abstracted background is layered and blended and spritzed and scraped. Kareen's love of abstracts evolved into combining abstract with realism. She finds inspiration from the textured colorful backgrounds and adds trees, florals, or landscapes. Kareen started painting her signature colorful birch trees at a time of change. The birch trees are a symbol of new beginnings, regeneration, hope, new dawns and the promise of what is to come. Kareen's landscape collection is inspired by the rolling meadows you see looking through the car window. When you look at one of my paintings it should bring you joy and make you stop and stare. It should make you wonder how.

Studio Name: Marleen Campbell by Design **Type Of Art/Craft:** Oil Painting

The diverse Haliburton landscape is where Marleen finds much of her inspiration, awakening the senses to create oil paintings which celebrate the colours of the Kennisis Lake area. The themes of Marleen's oil paintings consist mainly of vibrant landscapes and images, with many paintings portraying the layers of magnificent and rich fall colours. Marleen's second greatest inspiration comes from her Dutch heritage and love for tulips. Their strong colours and bold shapes inspire Marleen to celebrate their vibrancy. By using broad, relaxed brush strokes of intense colour, impressionistic-realistic paintings are created. Currently residing near Belleville, Marleen has lived and traveled throughout much of Canada. Marleen is a retired teacher and vice-principal who has been surrounded by the influences of art from a very young age, and has been a member of the Kennisis Lake cottage community for over 40 years. Marleen has had work exhibited and sold at the Gordon Harrison Gallery in Ottawa, Tremblant, Manotick Gallery, Rothwell Gallery, Haliburton, New Zealand and Great Britain; and has created a number of commissioned pieces. The vibrancy of Marleen's paintings has allowed her to further express her work onto scarves, bags, cards and pillows.

- providing training programs to artists and artisans to further their skills; and
- providing seniors with social and health benefits with creative and accessible arts programs.

Each year the Artists in the Schools and Community program strives to work with our local elementary schools to provide rich in-class, arts-based programs to stimulate interest and creativity, while enhancing the curriculum. The ACHH thanks all donors to this program.

In 2022, we introduced a new component to this program for children, youth and adults, bringing enriched opportunities to engage in the arts. Arts Council members conducted a number of workshops in the visual, performing and literary arts throughout the county. Participants enjoyed new learning in painting, jewelry making, acting, floriography, capturing family history, drawing and more.

Our thanks to the Kennisis
Lake Cottagers Association
for funding this first round of
Community Workshops.
